# CLEANER, CLEARER, SOFTER WATER

Nature<sup>2</sup><sup>®</sup> is the number one mineral sanitizing system in the world. For more than 20 years, Nature<sup>2</sup> has been proven to deliver a safer, cleaner, clearer swimming experience to millions of satisfied customers. It is the most complete, user-friendly system available, and unlike other products, Nature<sup>2</sup> is the solution that delivers perfect pool water, naturally.

## THE MINERAL SOLUTION, REDISCOVERED

Natural minerals, such as silver and copper, have been used for thousands of years as a natural way to destroy bacteria and other harmful contaminants. Nature<sup>2</sup> brings the benefits of these safe, proven elemental ingredients to create pool water that is noticeably cleaner, clearer, and softer.

## A BETTER SWIMMING EXPERIENCE

Nature<sup>2</sup> is a simple and effective pool sanitizing solution. In conjunction with your pool's filtration system, it delivers minerals to provide improved pool water quality. It allows you to maximize your chlorine investment, thereby reducing the potential for chlorine irritations and odors. With Nature<sup>2</sup>, your swim experience is clean, fresh, and gently soothing.

## SMART SANITIZING SYSTEM

The Nature<sup>2</sup> System with Controlled Release Technology (CRT) effectively sanitizes your pool. CRT automatically controls the release of silver and copper mineral ions into your pool water. It also works easily with most pool systems because Nature<sup>2</sup> is compatible with chlorine, bromine and most pool maintenance products.\*

### family friendly

Nature<sup>2</sup> reduces the potential for red eyes, skin irritations and odors by enhancing the way chlorine works.

### easy to use

Quick and easy to install, operate, and maintain.

### natural bacteria + algae control guaranteed

Nature<sup>2</sup> minerals naturally and effectively destroy bacteria and control algae.

\*Do not use Nature<sup>2</sup> with copper-based algaecides or Biguanides.
