

The perfect companion for the IntelliChlor® salt chlorine generator—helps balance pool water and keep it sparkling clear

IntellipH™ is the perfect companion for the IntelliChlor® salt chlorine generator. It automatically dispenses muriatic acid to balance your pool's pH while IntelliChlor creates pure chlorine from salt, right in the swimming pool. IntellipH eliminates fluctuations in pH level, protecting your pool equipment from corrosion caused when pH swings in and out of balance. IntellipH assures more effective sanitization, resulting in pool water that's easier on swimmer's eyes, hair and swimwear.

IntellipH is safe and convenient for pool owners. When it's time to refill the IntelliChlor acid container, you simply remove the plastic cap from the gallon jug of muriatic acid, leaving the foil seal in place.

Then invert the jug over the IntelliChlor container. An internal mechanism pierces the foil seal, allowing the acid to drain safely into the reservoir, avoiding potentially hazardous poolside splashes and spills.

If you're already using the IntelliChlor salt chlorine generator, then choose the perfect mate for safe, convenient pH control...IntellipH.

An Eco Select™ Brand Product

The IntellipH™ pH controller has earned the Eco Select™ brand, designating it as one of the most environmentally responsible equipment choices in the Pentair Water Pool and Spa® family.

IntellipH™ pH Controller

Pump style lid seals securely assuring safe operation

Acid addition rate adjusts with the touch of a button

Bolts securely to the equipment pad to prevent spillover

IntellipH—for balanced pool water and simple pH management

The IntellipH™ pH controller makes managing your pool's pH a breeze. It works in perfect harmony with your IntelliChlor® salt chlorine generator, providing a constant acid dose to maintain just the right pH level. Plus, IntellipH eliminates poolside spills.

Additional features:

- Protects your pool equipment from corrosion when pH swings in and out of balance.
- Makes sanitizing more effective by eliminating fluctuations in pH level.
- Assures safe pH water conditions.
- Eliminates poolside acid spills.
- Powered by either IntelliChlor Power Center or EasyTouch® system with IntelliChlor support for easy wiring/installation.
- Large 4 gallon reservoir.
- UL and cUL listed.
- One-year limited warranty on electronics and metering pump.
