

# SealedSteel® Salt Friendly Vinyl Coated Ladders & Rails

## SealedSteel Colors

Due to printing technology actual color may differ.

**WetTraction®** Increased traction when wet. No more slippery rails.

**StressLess** Vinyl coating fully encapsulates stainless steel to lock out corrosion.

**Sealing Cap\*** creates full encapsulation. (shown pulled off)

This unique coating is the number one choice for use in salt chlorinator pools. Our SealedSteel® Salt Friendly rails are completely encapsulated in a protective coating that virtually eliminates corrosion, and stays cool to the touch even in extreme temperatures. This high quality upgrade is available on many S.R.Smith ladders and rails. In addition, we've added the SealedSteel Salt Friendly protection to many popular rails and ladders styles as stock items.

## Stock Vinyl-Coated Models

Model No	Description
<b>24" 3-Step Economy Ladder with Escutcheons</b>	
	Shipping: 61" x 29" x 2" / 23 lbs
VLLS-103E-VW	Radiant White Econoline model (plastic treads)
