

# The Ultimate Filter for Aquatic Life

- ❖ Biological and Mechanical Filtration in One Compact Package
- ❖ Easy to Install and Maintain
- ❖ Ultima II Advanced Technology Does the Dirty Work for You
- ❖ Backwash Takes Just 5 Minutes a Week
- ❖ Designed for Heavy Fish Loads and High Flow Rates
- ❖ Easy to Conceal Ultima Filter can be Buried Up to the Valve Assembly

Ultima II Filters are available in: 1,000, 2,000, 4,000, 6,000, 10,000, 20,000, Not Pictured below 30,000 , 60,000, 100,000 and 250,000 gallon sizes

**ULTIMA II FILTRATION SYSTEM**

# ULTIMA II FILTRATION

Item	Size	Pond Size(Gallons)
Ultima II Filter - 1,000	14" Dia. x 23-1/4" Tall - 1 1/2" Top Valve	1,000
Ultima II Filter - 2,000	16 1/2" Dia. x 33" Tall - 1 1/2" Top Valve	To 2,000
Ultima II Filter - 4,000	20 1/2" Dia. x 38" Tall - 1 1/2" Top Valve	To 4,000
Ultima II Filter - 6,000	22 1/2" Dia. x 42 3/4" Tall - 2" Top Valve	To 6,000
Ultima II Filter - 10,000	24 1/2" Dia. x 43 3/4" Tall - 2" Top Valve	To 10,000
Ultima II Filter - 20,000	30 1/2" Dia. x 48" Tall - 2" Top Valve	To 20,000
Ultima II Filter - 30,000	35 1/2" Dia. x 53" Tall - 2" Top Valve	To 30,000
Ultima II Filter - 30,000	30 1/2" Dia. x 39 3/4" Tall - 3" Side Valve	To 30,000
Ultima II Filter - 60,000	36 1/2" Dia. x 45 1/4" Tall - 3" Side Valve	To 60,000

Note: Optional 2" High Flow Top Valve available on 1,000 through 4,000 models

## Independent laboratory and field testing show the Ultima II out performs all other filters.

### "Cyclonic" Backwash System

- Just Minutes to Backwash
- Backwash is Done Simply by Depressing and Rotating the Valve

- Internal Jets do the Work for You
- Never Get Your Hands Dirty!

Patent 6,447,675

### Bio-Media Features

- Scientifically Engineered
- Unique Patented Tubular Design Prevents Clumping & Channeling
- Highest Surface Area for Growth of Beneficial Bacteria
- Protects Bacteria while Dislodging unwanted Debris
- Pre-Seeded With Bacteria to Start Colonization Quickly
- Media Never Needs to be Replaced
